

NOME E ID DEL PROVIDER: Kos Care – ID Provider 3740

TITOLO: La Prevenzione del Rischio di Suicidio

TIPO DI ACCREDITAMENTO e MODALITA' DI EROGAZIONE: Evento Formativo – FAD Asincrona

EDIZIONE: 1

DATA: 12/01/26 - 31/12/26

DESTINATARI DELL'ATTIVITA' FORMATIVA: Tutte le professioni sanitarie

N° PARTECIPANTI: 2.000

DURATA: 1 ora

PRESENTAZIONE:

Il fenomeno del rischio suicidario è una condizione multifattoriale che rappresenta un'emergenza psichiatrica, sociale e ambientale. Come indicato anche dalle linee guida specifiche e dalla Raccomandazione n.4 del Ministero della Salute "PREVENZIONE DEL SUICIDIO DI PAZIENTE IN OSPEDALE" l'ambito ospedaliero in generale, ed in particolar modo quello psichiatrico, è il luogo in cui è maggiormente necessario mettere in atto un sistema di valutazione del paziente, il monitoraggio delle condizioni psicopatologiche, la realizzazione di processi clinico-organizzativi e l'elaborazione di percorsi assistenziali e di continuità con il territorio.

L'applicazione di un modello di gestione clinica del rischio suicidario in psichiatria deve quindi trovare il suo punto di realizzazione, sia nello strutturare specifici percorsi di valutazione del paziente e dell'ambiente, sia nella formazione del clinico per la conoscenza dei fattori di rischio e delle modalità operative da attuare nella valutazione del rischio suicidario. Gli operatori sanitari rivestono quindi un ruolo cruciale nella prevenzione del suicidio, essendo i principali interlocutori dei pazienti a rischio. Tuttavia, la gestione del rischio suicidario è estremamente complessa, poiché implica la capacità di riconoscere segnali spesso sottili, valutare la gravità ed adottare strategie di intervento efficaci in un contesto clinico complesso. Nonostante la centralità di questa competenza nella pratica psichiatrica, numerosi studi indicano che anche i professionisti esperti possono incontrare difficoltà. Comprendere i fattori di rischio per il suicidio è fondamentale per la prevenzione nel riconoscere e gestire correttamente il rischio suicidario; diversi sono stati identificati come associati a un rischio più elevato di suicidio, tra cui la storia familiare di suicidio, la salute mentale, ma anche l'uso di droghe e alcol, fattori contestuali come eventi di vita stressanti e fattori sociodemografici. Questi fattori di rischio individuali sono influenzati direttamente e indirettamente da determinanti sociali ed ambientali.

La formazione è incentrata sulla prevenzione del rischio da suicidio e il relativo trattamento, mettendo in evidenza i fattori di rischio e con un focus sull'emergenza nella popolazione più giovane.

PROGRAMMA DETTAGLIATO:

- Miti e Fatti
- Fattori di Rischio ed Epidemiologia
- L'emergenza suicidio nei giovani
- Prevenzione del Suicidio
- Trattamento del Suicidio

WORK EXPERIENCE

- [Current] **Full Professor of Psychiatry (SC 06/D5, SSD MED/25)**
Dept. of Neuroscience, Section of Psychiatry, Catholic University of the Sacred Heart
City: Rome | **Country**: Italy
- [Current] **Director, Psychiatry Unit**
Fondazione Policlinico Agostino Gemelli IRCCS
City: Rome | **Country**: Italy
- [Current] **Director, Psychiatry Residency Training Program, School of Medicine and Surgery**
Catholic University of the Sacred Heart
City: Rome | **Country**: Italy
- [Current] **President, Italian Society of Psychiatry Regional Section**
Regional Section
City: Lazio | **Country**: Italy

EDUCATION AND TRAINING

- [2005] **Specialty in Psychiatry**
Psychiatry Residency Training Program, Second School of Medicine and Surgery, Sapienza University
City: Rome | **Country**: Italy | **Final grade**: 70/70 Magna cum Laude | **Thesis**: Clinical picture of 96 cases of completed suicide
Director: Prof. Roberto Tatarelli
- [2003] **Fellowship**
McLean Hospital, Schizophrenia and Bipolar Disorder Clinic, Harvard Medical School
City: Boston | **Country**: United States |
Research and educational activity supervised by Prof. Franca Centorrino.
- [2002] **Medical License**
Board of physician of Rome
City: Rome | **Country**: Italy |
- occupational techniques (making of standard breads, fancy breads, cakes and pastries)
- science applied to food and equipment (microbiology, biochemistry, hygiene)
- occupational technology (basic principles, hygiene and safety)

- knowledge of business and its economic, legal and social context

[2001] **Admission**

Psychiatry Residency Training Program, Second School of Medicine and Surgery, Sapienza University

City: Rome | **Country:** Italy |

Psychiatry Residency Training Program, Second School of Medicine and Surgery.

Ranked as the second candidate for admission

[2001] **University Graduation**

School of Medicine and Surgery Sapienza University

City: Rome | **Country:** Italy | | **Final grade:** 110/110 Magna cum Laude | **Thesis:** "Stability of the rapid cycling course"

ACADEMIC APPOINTMENTS

[11/2019 – 06/2021] **Associate Professor of Psychiatry**

Catholic University of the Sacred Heart, Rome

[11/2017 – 10/2019] **Associate Professor of Psychiatry**

NeSMOS Department, Sapienza University, Rome

[02/2018 – 10/2019] **Director, School of Psychiatric Rehabilitation Technician**

- NeSMOS Department, Sapienza University, Rome
- School of Medicine and Psychology, Sapienza University, Rome

[11/2012 – 10/2019] **M.D.**

Department of Psychiatry, Sant'Andrea Hospital, Rome

[11/2016 – 10/2019] **Associate Training Director**

Psychiatry Residency Training Program, School of Medicine and Psychology, Sapienza University, Rome

[03/2015 – 10/2019] **Member of the Committee of Quality Monitoring**

School of Medicine and Psychology, Sapienza University, Rome

[11/2013 – 10/2019] **Responsible of publication control procedure (U-GOV/IRIS)**

NeSMOS Department, Sapienza University, Rome

[11/2013 – 11/2016] **Representative of Assistant Professors in the Faculty Council**

School of Medicine and Psychology, Sapienza University, Rome

[11/2013 – 11/2016] **Representative of Assistant Professors in the Department Board**

NeSMOS Department, Sapienza University, Rome

[11/2010 – 11/2017] **Assistant Professor of Psychiatry**

NeSMOS Department, Sapienza University, Rome

[2011 – 2013] **Member of the board of the international PhD program in Cognitive, Social and Affective Neuroscience**

Cognitive, Social and Affective Neuroscience (CoSAN) is a multi-centre European and International PhD program. Program coordinator: Prof. Salvatore Maria Aglioti.

School of Medicine and Psychology, Sapienza University, Rome.

[2009 – 2012] **Member of the Scientific and Didactic Committee**

Master *“Theory and practice in Forensic Psychiatry: clinical, psychodiagnostic, criminological and legal aspects”*

President: Prof. Roberto Tatarelli

School of Medicine and Psychology, Sapienza University, Rome.

[05/2006 – 05/2008] **Research Fellowship**

“Study of the neuropsychological and psychopathological variables of mood disorders”

Supervisor: Prof. Roberto Tatarelli.

Second School of Medicine and Surgery, Sapienza

University, Rome.

OTHER APPOINTMENTS

[05/2016 – 11/2019] **Referee of VQR 2011-2014 (National system for the evaluation of research quality)**

ANVUR/CINECA

[11/2012 – 11/2019] **Physician, Psychiatry Inpatient and Outpatient Unit, Sant’Andrea Hospital, Rome.**

Psychiatric Department, Sant’Andrea Hospital.

Director: Prof. Paolo Girardi

[05/2010 – 10/2010] **Psychiatric inpatients and outpatient care (temporary position)**

Psychiatric Department, Sant’Andrea Hospital, Dir. Prof. Roberto Tatarelli.

[01/2010 – 04/2010] **Psychiatric inpatient care**

Samadi Hospital (operating within the National Health System), Rome

[09/2009 – 12/2009] **Psychiatric inpatients and outpatient care (temporary position)**

Psychiatric Department, Sant’Andrea Hospital, Dir. Prof. Roberto Tatarelli.

[05/2008 – 08/2009] **Psychiatric inpatient care**

Samadi Hospital (operating within the National Health System), Rome

[06/2006 – 05/2008] **Temporary research fellow at the Sapienza University of Rome and psychiatric inpatients and outpatient care**

Psychiatric Department, Sant’Andrea Hospital, Dir. Prof. Roberto Tatarelli.

[2005 – Current] **Psychiatric outpatient care**

Lucio Bini Center - Rome

- [2001 – 2005] **Postgraduate Psychiatry Patient Care**
Focusing on Mood Disorders. Supervisor Dr. Athanasios Koukopoulos at the Lucio Bini Center, Rome.
- [1998 – 2001] **Internship in clinical management of psychiatric outpatients**
Supervisor dr. Athanasios Koukopoulos at the Lucio Bini Center - Rome.
- [1996 – 1998] **Internship in clinical management of hospitalized psychiatric patients**
Supervisor dr. Athanasios Koukopoulos at the Belvedere Montello Hospital, Rome

TEACHING EXPERIENCE

- [2016 – 2019] **Psychiatry – Psychological evaluation and counseling Residency Training Program**
School of Medicine and Psychology, Sapienza University, Rome
- [2015 – 2019] **Science of rehabilitation in psychiatry – Rehabilitation in psychiatry (ASL RM/A - ASL RM/E) ECTS: 6**
School of Medicine and Psychology, Sapienza University, Rome
- [2015 – 2019] **Psychology and nursing in mental health – School of nursing Cassino ECTS: 6**
School of Pharmacy and Medicine, School of Medicine and Odontology Sapienza University, Rome
- [2015 – 2019] **Psychology and nursing in mental health – School of nursing Nettuno (ASL RM/H) ECTS: 6**
School of Pharmacy and Medicine, School of Medicine and Odontology Sapienza University, Rome
- [2015 – 2019] **Progress in neuroscience – Rehabilitation psychiatry ECTS: 6**
School of Medicine and Psychology, Sapienza University, Rome
- [2014 – 2019] **Psychotherapy in psychiatric settings – Neuropsychology Residency Training Program ECTS: 6**
School of Medicine and Psychology, Sapienza University, Rome
- [2014 – 2019] **Psychopathology - School of Medicine and Surgery**
School of Medicine and Psychology, Sapienza University, Rome
- [2013 – 2019] **Science of rehabilitation in psychiatry – Rehabilitation in psychiatry ECTS: 4**
School of Medicine and Psychology, Sapienza University, Rome
- [2013 – 2019] **Psychiatry - School of Psychology [L (DM 270/04) - ORDIN. 2009] ECTS: 4**
School of Medicine and Psychology, Sapienza University, Rome
- [2013 – 2019] **Psychiatry – School of Psychology ECTS: 4**
School of Medicine and Psychology, Sapienza University, Rome
- [2011 – 2019] **Health Management – School of rehabilitation in psychiatry ECTS: 4**
School of Medicine and Psychology, Sapienza University, Rome

[2011 – 2019] **Psychiatry – Neurology Residency Training Program**

School of Medicine and Psychology, Sapienza University, Rome

[2010 – 2019] **Biological Psychiatry – Psychiatry Residency Training Program**

School of Medicine and Psychology, Sapienza University, Rome

[2010 – 2019] **Emergency psychiatry - School of Medicine and Surgery**

School of Medicine and Psychology, Sapienza University, Rome

[2010 – 2019] **Psychiatry – School of Medicine and Surgery European Credit Transfer System Credits (ECTS): 4**

School of Medicine and Psychology, Sapienza University, Rome

[2009 – 2012] **Master di II level in “Theory and praxis in forensic psychiatry: clinic, psychodiagnostic and legal-medical aspects”**

Second School of Medicine and Surgery, Sapienza University, Rome. Director: Prof. Roberto Tatarelli

Other Teaching Experiences

- Constant teacher of seminars on various topics of psychiatry for physicians, psychologists and students Faculty of Medicine and Psychology, Sapienza University of Rome.
- Lecturer in courses, seminars and conferences organized by the Italian Association for the Fight Stigma(AILAS).

SOCIETY MEMBERSHIPS, AWARDS AND HONORS, EDITORIAL BOARD

[2020 – Current] **Italian Society of Psychiatry**

Editor, Prof. Nassir Ghaemi

[2017 – Current] **Associate Editor BMC Psychiatry**

[2016 – Current] **Member of the International Group for the Study of Lithium Treated Patients (IGSLI)**

[2015 – Current] **Member of the Editorial board Neuroimmunology and Neuroinflammation**

[2015 – Current] **Member of the Editorial board of The Psychiatry Letter**

[01/2014 – 01/2014] **The article of the month in the Acta Psychiatrica Scandinavica**

For the Paper:

Koukopoulos, A., & Sani, G. (2014). DSM-5 criteria for depression with mixed features: a farewell to mixed depression. *Acta psychiatrica Scandinavica*, 129(1), 4–16.<https://doi.org/10.1111/acps.12140>

[2013 – Current] **Member of the International Society for Bipolar Disorders**

[2013 – 2016] **Segretario generale dell'AlTeSP (Associazione Italiana per le Terapie Somatiche in Psichiatria)**

[2006 – 2008] **Secretary of AITEC (Italian Association for Electroconvulsive Therapy)**

[2006] **Founding member of the European Forum for ECT**

[2005 – Current] **Member of the Editorial board of Aretaeus News**

[2001 – Current] **Member of Aretaeus, Association for the Study and Prevention of manic depressive illness**

Other

Member of several Scientific Secretariat of Congress and Conferences of psychiatry, including the international congress:

- *The bipolar spectrum: roots and wings* - May 2003
- *Therapeutic failures in bipolar patients. New strategies* - January 2005
- *The long-term treatment and the search for a stable health in bipolar patients* - January 2006
- *The Bipolar disorder and its treatment* - April 2008
- *The boundaries and comorbidities Bipolar Disorder* - January 2009
- *Diagnosis and treatment of Bipolar Disorder: the side of the clinic* - March 2010
- Courses, Conferences, Conventions of the Italian Association for the Fight Stigma (AILAS).

Neural and personality foundations of predictive motor interactions in healthy and damaged brains (prot. C26A115CM5)

Component of the research group of University Research Project, Sapienza University of Rome. Euros 27.818.

RESEARCH INTERESTS

ADHD

ADHD is a diagnostic challenge because of the symptoms that may be present in the other major psychiatric disorders and the peculiarities of drug therapy. We organized a clinic dedicated to ADHD at the St. Andrea Hospital to address these diagnostic and therapeutic questions.

Agitated/mixed depression

Agitated and mixed depressions are the most common mixed states in clinical practice. Agitated depression is characterized by a major depressive episode plus at least three symptoms of psychomotor agitation. Mixed depression presents important diagnostic problems: the excitation component is not visible but characterized by symptoms of mental agitation and inner tension. The patient with this type of depression cannot be treated with antidepressants, but they require, at least initially, an antiexcitation therapy. The DSM system, even in its latest edition, does not help clinicians to identify these patients and, therefore, to treat them adequately. Given the strong link between mixed depression, suicidality and antidepressant therapy, it is crucial to continue its studies in order to clarify the still controversial aspects.

Mood disorders

They represent an important part of all psychiatric disorders that still need a final diagnostic placement (bipolar I vs bipolar II, bipolar vs unipolar, the relationship between the clinical phenomenology and emotional temperament) and appropriate treatment, especially in the long term.

Lithium

For many years, it has been considered the gold standard for relapse prevention in the context of bipolar disorder and recurrent depression and prevention of suicide in patients with mood disorders. Its potential neuroprotective effect is a topic of great interest. In addition, its direct effect on brain structures is not yet clarified. We collected data on 300 patients with mood disorders who underwent 3T MRI, taken at different stages, to try to give an answer to this important question. We organized a clinic for mood disorders (which is called Lithium Clinic) at the Sant'Andrea Hospital to address these diagnostic and therapeutic questions.

MRI

It is not yet clear whether the brain changes, which are found in patients with psychiatric disorders, are the cause or the consequence of the disease or the psychopharmacological treatment. We collected data on 300 patients with mood disorders who underwent 3T MRI, taken at different stages, to try to give an answer to this important question.

Psychopharmacology

Psychopharmacological therapy is central in the treatment of patients with psychiatric disorders. It is increasingly urgent, however, a customization of the therapy in order to treat the person with that disorder in an ever more precise and appropriate way. Clinical, psychopathological and neurobiological data is considered in our research

Psychopathology

In the absence of complete psychopathological assessments, too often sacrificed in the name of greater "objectivity" of data, you will not be able to improve our neurobiological knowledge. The psychopathological and dimensional studies must be at the basis of neurobiological clinical trials. We collected data on 300 patients with mood disorders underwent 3T MRI, clinical and neuropsychological evaluation, taken at different stages, to try to give an answer to these important issues.

Rapid cyclicity

Considered patients resistant to therapy (especially lithium), we have studied their course, clinical characteristics and therapeutic possibilities.

Mixed States

Mixed States have always had an important position among the psychiatric disorders and have attracted the attention of clinicians of every century. After the systematization provided by Kraepelin, they were considered for decades the very essence of the manic-depressive illness. The DSM system has always given them a peripheral position in the official classifications. Only in recent decades, they have attracted the attention of clinicians and clinical researchers that have recognized a possible cause of treatment failures in their misdiagnosis.

Suicide

The suicide is a psychiatric and social health emergency. We have analyzed and described the psychopathology to which it is associated, and the benefits and /or worsening of each drug treatment.

Childhood trauma

Childhood trauma is an important event affecting the pathogenetic mechanism of psychiatric disorders, and it has important psychological clinical and neurobiological implications for the patients.
