DATA	13 giugno 2026
SEDE	Hotel Selene, Via Pontina Km 30, 00071 Pomezia (Roma)
ORE DI FORMAZIONE	4 ore e 30 min
PARTECIPANTI	max 25
CREDITI FORMATIVI ECM	5,2

The "Second International Symposium - Pelvic Floor Disorders: Focus on" is a congress of profound international importance, bringing together leading experts, clinicians, and researchers from across the globe to share their insights, research findings, and innovations in the field of colorectal and pelvic floor disorders. This symposium serves as a platform for cross-border collaboration, promoting international partnerships and the exchange of invaluable knowledge.

One distinctive feature of this symposium is the active involvement of others scientific societies. Their participation significantly enhances the scientific and organizational aspects of this event, and, with their support, the symposium is poised to offer a unique opportunity for attendees to engage with experts from different parts of the world and gain a comprehensive understanding of the latest developments in colorectal and pelvic floor disorders.

Many clinicians aspire to a multidisciplinary approach to the management of colorectal and pelvic problems, and the first step in widening the horizons of each of us is to communicate with our peers and colleagues from other specialties.

More than 300 participants will attend the meeting and pre-meeting courses based on new technologies, such as Laser in Coloproctology, HRA-anoscopy and anal precancerosis, Pelvic Floor Rehabilitation, Sacral Neuromodulation, Anorectal Manometry and Anal Endosonography and Colorectal Anastomotic Workshop.

We hope for a strong and productive discussion among all the involved professional roles, working together to ensure better solutions for patients with colorectal and pelvic floor disorders.

That is the aim of this conference.

PROGRAM

13th June 2026

LASER IN COLOPROCTOLOGY

Direttore del Corso e Docente: Enrico Magni

13.00 Welcome

13.30 Presentazione del corso

14.00 Trattamento Laser assistito della Malattia emorroidaria sintomatica Presentazione con Video e Discussione

14.45 Trattamento Laser assistito delle Fistole Anali Presentazione con Video e Discussione

15.30 Trattamento Laser assistito del Sinus pilonidalis sacro-coccigeo Presentazione con Video e Discussione
