Socio accomandatario dell'impresa Webable SAS di Welzel Rossella

L'impresa Webable SAS è specializzata in accessibilità digitale.

Offro consulenza e formazione su come creare contenuti digitali accessibili: documenti e pagine online, a personale e docenti delle Univ. Italiane, interessati a sviluppare competenze per una didattica inclusiva, che soddisfi le esigenze di tutti gli studenti, inclusi quelli con bisogni speciali.

Da ottobre 2025 ho iniziato ad offrire consulenza e formazione anche ad alcune aziende private, nel settore telecomunicazioni e assicurativo.

Sono rivenditore in Italia di 2 soluzioni software per l'accessibilità digitale:

SensusAccess per convertire documenti in formato alternativo accessibile, e Brickfield Accessibility Toolkit, per identificare e correggere gli errori di accessibilità dei corsi di elearning, su piattaforma Moodle.

Da Marzo 2024 sono stata incaricata dalla ditta irlandese Brickfield Education Labs di tenere i corsi online di accessibilità digitale in italiano per i loro clienti: effettuo 4 workshop ogni mese, ognuno della durata di 1 ora circa.
