

JOINT IPLASS-COMETA SYMPOSIUM

ADVANCING RESEARCH, INNOVATION
AND CLINICAL IMPACT

9-10 NOVEMBER 2026

VILLA QUARTARA

IRCCS ISTITUTO GIANNINA GASLINI, GENOVA

Two days of dialogue and discovery at the intersection of research,
clinical practice and innovation.

Bringing together international experts, researchers, clinicians, industry
and innovation stakeholders to shape the future of advanced therapies.

KEY TOPICS

1. Perinatal derivatives

2. Extracellular vesicles, secretome
and biologics derived products

3. Advanced Therapy Medicinal Products (ATMPs):
development, manufacturing and quality control

4. Artificial intelligence and advanced
data analytics in innovative therapies

5. Technology transfer, innovation
and valorization of research results

6. Preclinical models and enabling
technologies for therapeutic development

7. Clinical translation and
regenerative medicine

8. Cellular and computational models
for personalized innovative therapies

DISTINGUISHED SPEAKERS

Leading international and national experts,
opinion leaders and innovators will share
their latest insights across a wide range
of fields in advanced therapies
and innovation.

VISIBILITY

Reach a highly specialized community
of researchers, clinicians, industry experts,
biotech and pharma companies,
professionals from digital health
and young investigators.
