

EDUCATIONAL PROGRAMME

IBD Care in Evolution: From Earlier Control to Precision Management

An advanced educational meeting for IBD specialists

Scientific Chair	Alessandro Armuzzi, Silvio Danese, Edoardo Savarino
Faculty	Paolo Gionchetti, , Ambrogio Orlando, Massimo Fantini, Flavio Caprioli, , Gionata Fiorino, Olga Nardone, Daniela Pugliese
Venue / Date	Milan 14 December 2026
Audience	Approximately 60 IBD specialists
Total duration	6 hours, including registration, networking lunch, coffee break and CME assessment

SCIENTIFIC AGENDA

Time	Session	Speaker / Moderator
10:30–11:00	Registration	—
11:00–11:15	Welcome and opening: IBD care at a turning point	Alessandro Armuzzi
11:15–11:35	From symptom control to disease modification: how IBD goals have changed	Paolo Gionchetti
11:35–11:55	Earlier, smarter diagnosis: recognising IBD before irreversible damage	Edoardo Savarino
11:55–12:15	The expanding therapeutic landscape: biologics, small molecules and beyond	Silvio Danese
12:15–12:35	Expert discussion and audience interaction	Moderators: Alessandro Armuzzi and Flavio Caprioli
12:35–13:35	Networking lunch	—
13:35–13:55	Treat-to-target 3.0: integrating symptoms and PROs with biomarkers, imaging, endoscopy and deeper healing targets	Gionata Fiorino
13:55–14:15	Choosing and sequencing advanced therapies in the individual patient	Flavio Caprioli
14:15–14:35	Beyond the bowel: complex phenotypes, extraintestinal disease and multidisciplinary care	Ambrogio Orlando
14:35–14:55	Infection Prevention in Patients with IBD: The Role of Herpes Zoster, Influenza, HPV, RSV and Pneumococcal Vaccination and beyond in the Era of Advanced Therapies	Daniela Pugliese
14:55–15:10	Coffee break	—
15:10–15:30	The patient as a partner: quality of life, adherence and shared decisions	Olga Nardone
15:30–15:50	The next frontier in IBD: precision medicine, digital innovation and emerging therapies	Massimo Fantini
15:50–16:10	Expert discussion and audience interaction	Moderators: Alessandro Armuzzi and Massimo Fantini
16:10–16:30	Key takeaways: what should change in clinical practice tomorrow?	Alessandro Armuzzi
16:30–16:45	CME assessment and close	—
